PROFESSIONAL SUMMARY

Full-stack Software Engineer with 4+ years building enterprise fintech platforms for financial institutions and commercial systems for non-financial institutions across West Africa (Nigeria, Ghana, Botswana). Delivered trading and treasury systems with 99.8% uptime. Expert in React, TypeScript, Next.js, Java Spring Boot, Node.js.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, Next.js, Redux, JavaScript (ES6+), HTML5/CSS3, Tailwind CSS
Backend: Java (Spring Boot), Node.js, Express.js, Python, RESTful APIs, Microservices
Database: MSSQL, PostgreSQL, MongoDB
Cloud & DevOps: AWS (Lambda, EC2, S3), Docker, Git, CI/CD Pipelines
Testing: JMeter, Cypress, Jest, JUnit, Performance Testing, Penetration Testing

PROFESSIONAL EXPERIENCE

Software Engineer | Aristack Technology Solutions | Lagos, Nigeria | Sep 2024 – Present

- Architected FX and trading platforms for 5+ financial institutions across West Africa (Nigeria, Ghana, Botswana), achieving 99.8% uptime and <200ms response time
- Lead full-stack development of treasury management application (React, TypeScript, Next.js, Java Spring Boot) for 8+ clients, managing \$50M+ daily operations
- Reduced API latency by 45% through database optimization and connection pooling strategies
- Improved trader productivity by 30% via real-time data visualization and optimized UI workflows
- Resolved 95% of P1/P2 incidents within 2-hour SLA across 3 countries with 100% data integrity
- Identified and resolved 30+ critical security vulnerabilities pre-production via JMeter and penetration testing
- Provide technical support for Access Bank's trading and treasury operations across Nigeria, Ghana, Botswana

Software Engineer Intern | Semicolon Labs | Lagos, Nigeria | Sep 2023 – Dec 2023

- Built AI-powered proctoring system (React, Node.js, TensorFlow.js) serving 1,200+ concurrent students across 15+ institutions
- Reduced fraud detection time by 65% with 92% accuracy through real-time monitoring dashboard

- Implemented facial recognition, anomaly detection, and end-to-end encryption for GDPR compliance

Full-Stack Developer (Freelance) | iBloom Rentals | Lagos, Nigeria | 2024

- Deployed production e-commerce platform (Next.js, React, Node.js) with 200+ product inventory
- Reduced cart abandonment by 35%, increased engagement by 40% via optimized UI/UX
- Achieved 90+ Lighthouse scores, reduced page load by 40% through performance optimization
- Integrated Stripe payment gateway processing 50+ monthly transactions
- Live site: ibloomrentals.com

Mobile Developer (Contract) | Revo Energies | Lagos, Nigeria | Aug 2023 – Dec 2023

- Built RESTful APIs (Java Spring Boot) supporting 10,000+ daily requests with 99.5% uptime
- Developed React Native app reducing onboarding time by 50%, increasing retention by 35%
- Led UI/UX design (Figma) with 100+ user research participants, improved engagement by 35%

Software Engineering Trainee | Semicolon Africa | Lagos, Nigeria | Sep 2022 – Sep 2023

- Completed intensive 12-month program covering full-stack development, system design, algorithms, Agile methodologies
- Built BIME browser extension (Chrome Manifest v3, Java Spring Boot, React) with 1,000+ active users
- Delivered 15+ projects with 95% code review approval rating

PROJECTS

iBloom Rentals | ibloomrentals.com

Full-stack e-commerce platform with Stripe integration, real-time inventory management, 90+ Lighthouse score, 40% performance improvement. Tech: Next.js, React, TypeScript, Node.js, MongoDB, Stripe, AWS

Build Haven Hub | buildhavenhub.com

Construction management system with document tracking and team collaboration. Tech: React, Node.js, Express, PostgreSQL

BIME Extension

Chrome productivity tool with time tracking and analytics dashboard for 1,000+ users. Tech: Chrome Manifest v3, Java Spring Boot, React

EDUCATION

National Diploma in Business Administration and Management

Osun State College of Technology | 2019 – 2021

CERTIFICATIONS

Software Engineering & Design Thinking – Semicolon Africa (2023)

Business Management Certificate – Henley Business School, UK (2023)

AWS Cloud Practitioner (In Progress)

Languages: English (Fluent), Yoruba (Native)

Availability: Immediate | Open to relocation (Canada, USA, UK, Europe) | Visa sponsorship welcome
